

NEIGHBORHOOD CRIME WATCH HISTORICAL BACKGROUND

Neighborhood Crime Watch is based on a model developed in 1972 by the National Sheriff's Association. The National Neighborhood Crime Watch was developed in response to requests from Sheriffs and Police Chiefs for a program which would stem the dramatically increasing rate of burglary in the United States.

The program concept evolves from the experiences of localities across the country which have encouraged citizens to help Law Enforcement fight crime by being more observant of suspicious or criminal activity and then reporting that activity to appropriate authorities.

The Sheriff's Association recognized that changes in life styles were making neighborhoods less secure and more vulnerable to crime. Factors such as households where both husband and wife are employed, mobility and freedom provided by automobiles, the growing popularity of apartment living, and others, were causing many persons to become strangers to their neighbors. Many neighborhoods became deserted during the day and often, when people were at home, they were not aware or concerned enough to take action, if suspicious activity or a crime took place.

It has been estimated that over 15 million people in all fifty states as well as the District of Columbia, Guam, Puerto Rico, and the Virgin Islands are participating in the Neighborhood Crime Watch Program.

OPERATION I. D. is a burglary prevention program that encourages citizens to mark their property with their social security number. This effort, once completed, serves both as deterrent and property recovery and return assistance.

NEIGHBORHOOD WATCH includes the following:

- a. Identify a chairman and co-chairman for the group. These will serve a one year term.
- b. A location map of the neighborhood and a contact sheet of information which includes – names, addresses, home and work phone numbers, emergency contact numbers, color of car and plate number and any other information neighbors would like to share.
- c. House numbers clearly marked.
- d. Street names posted and intersections clearly marked.
- e. A communication system voted on by the group and implemented.
- f. Map, not contact sheet, on file with the police zone.
- g. Maintenance meeting held every 3 months to involve new neighbors, circulate engraving pen and discuss concerns.
- h. Posting of “ LETS STOP CRIME TOGETHER” signs.

In order for any group to receive their signs, they must have completed all of the above requirements. This includes involvement in all three parts of the program and filing map with your police zone.
